

# Tidy-Bow Clip On Elbow

The Antelco Tidy-Bow provides a simple leak proof way of redirecting and securing micro irrigation tubing.

## Features

- Clips over the outside of tube, removing the need for cutting the tube and additional micro fittings.
- Redirects tubing without kinking or flow restriction.
- Mounting hole secures tube in place with 2 mm nail (not included).
- Suits micro irrigation tubing up to 7 mm O.D.

## Applications

Ideal for routing and securing supply tubes in home gardens, pot watering, overhead watering and misting systems.
