Pushfit

Connect PE pipe to Copper, PB and PEX

Plasson **pushfit** is a range of innovative push-fit fittings that provide connectivity of Polyethylene (MDPE) pipe to a variety of plumbing pipe materials. Inserting the pipe up to the fitting stop creates both seal and grip on the pipe.

When using PB/PEX pipes, use pipe manufacturers liner.

Pushfit fittings are simple to assemble, making the job easier whilst providing the world famous PLASSON reliability.

Pushfit is WRAS approved and 16 bar rated fitting system when used with an appropriate liner.

Key Features:

- Range of fittings from 20 to 63mm.
- Assembly tools not required, simply push to fit.
- Compact size allows assembly in confined spaces.
- Fully demountable.
- Lightweight and maintenance free.
- 50 year design life.
- Tamper resistant.
- Provides connectivity of polyethylene (MDPE) pipe to MDPE, copper, PB, PEX and imperial pipe.
- Fully end loaded performance so no need to restrain joints.
- Pipe liners sold separately. PLASSON's standard 7950 pipe liner fits both the pushfit and mechanical range.

For the full range of pushfit fittings from 20 mm up to 63mm go to the **pushfit** section in our Price Catalogue.
